PRODUCT DESIGN LEADERSHIP | ENTERPRISE UX AND DESIGN SYSTEMS

SUMMARY

Product design leader with more than 15 years of experience simplifying complex enterprise workflows and leading UX/UI from research through delivery. Leads design across nine Disney advertising platforms and manages four designers. Expertise spans design systems, order management, sales tools, and AI interaction design. Partners with product, engineering, finance, and operations to align product experiences. Earlier work on cloud data management supported growth from 100 to 100,000 monthly users.

CORE SKILLS

Enterprise UX/UI; Product design; Design systems; Interaction design; Visual design; Workflow modeling; User research; Usability testing; Prototyping; AI interaction design; Design leadership; Cross-functional collaboration; Figma ; Cursor

PROFESSIONAL EXPERIENCE

Disney Entertainment and ESPN Technology

Lead Designer, Ad Platforms | October 2021 - Present

- Lead UX across nine interconnected enterprise platforms spanning the Quote-to-Cash lifecycle; manage and mentor four designers and align design direction with product, engineering, finance, and operations.
- Modernize AdVisor advertising workflows for planning, sales, campaign trafficking, forecasting, and inventory visibility, translating complex business rules and legacy processes into intuitive interfaces.
- Design foundational workflows for Atlas, a next-generation order management system replacing Operative, covering order setup, rules, inventory, trafficking, and downstream reconciliation.
- Establish design principles, reusable patterns, and component libraries across advertising products to improve delivery speed and reduce engineering rework; align workflows, terminology, and navigation across platforms.
- Define Jarvis/QTC AI copilot interactions for plan generation, forecasting support, and automated quality assurance recommendations, including prompts, explanations, transparency signals, and confidence levels.
- Present design direction to Director and VP leadership and cross-functional teams; delivered a UX Summit presentation viewed by more than 2,000 internal employees.

Dell Technologies | Round Rock

Principal Product Designer | April 2021 - October 2021

Senior Product Designer / Team Lead | January 2019 - March 2021

- Designed internal sales and channel partner experiences for Dell Sales Application and Online Solution Configurator, guiding complex projects from concept through release.
- Designed pricing and tax-exemption workflows for Canada; redesigned server and storage configuration experiences using interviews with sales teams in the U.S. and Asia.
- Developed a Unified Sales Experience vision and Channel Partner Order Request workflows; coordinated design delivery, mentored junior designers, and supported hiring six designers in 2020.

PROFESSIONAL EXPERIENCE CONTINUED

Lenovo U.S. | Morrisville

Advisory User Experience Designer | February 2014 - December 2018

- Led UX/UI for REACHit 2.0 cloud data management; monthly users grew from 100 on version 1.0 to 100,000 on version 2.0.
- Served as sole designer for Cross Share in a 30-person Motorola collaboration, connecting Android SMS and photos with a Lenovo PC application; developed a process that reduced labor by 30%.
- Led concepts, prototypes, and UX/UI for REACHit 3.0, a Microsoft Cortana plug-in, collaborating with 16 developers, architects, and project and marketing managers.
- Designed PC and mobile applications from concepts and storyboards through prototypes and launch, partnering with researchers and product teams to test and refine concurrent projects.

Lenovo U.S. | Morrisville

Graphical User Interface Designer | October 2011 - January 2014

- Designed screens, icons, user flows, and development specifications for ThinkPad PC and Android tablet applications, incorporating user feedback.
- Led concept and UX/UI design for ThinkPad Smart Mark and Windows 8 applications; oversaw end-to-end UX for ThinkPad Tablet 2.0 with a 15-person team.

Union Design and Development Corporation, now Advantech | Taipei, Taiwan

Designer | May 2006 - May 2009

- Designed product concepts, interfaces, storyboards, and prototypes for smart home and conference room controllers, integrating user research and collaborating with client developers.

TEACHING EXPERIENCE

College for Creative Studies Graduate Studies

Adjunct Professor | January 2024 - Present

Develop and teach graduate level User Interface coursework, including lectures and critiques.

Austin Community College

Adjunct Associate Professor | January 2020 – Present

Taught user interface design, UX tools, visual design, and UX career development.
