LEAD UX/UI DESIGNER

Design leader with 17+ years delivering large-scale enterprise platforms, workflow systems, and high-visibility digital tools across global tech and entertainment organizations. Proven track record transforming design from a support function into a strategic partner — shaping vision, elevating craft, and aligning cross-functional teams around measurable business outcomes.

Brings deep experience in UX, systems thinking, visual communication, design systems, and AI-supported workflows. Known for building inclusive, high-performing design cultures, coaching designers at all levels, and increasing the visibility and influence of design across organizations.

- *Platform Design & Workflow Systems*
- *Strategic Partnership & Product Alignment*
- *Design Systems + Component Libraries*
- *UX, Visual, and Systems Design Leadership*
- *AI-Integrated Design Workflows*
- *Executive Storytelling & Influence*
- *Team Building, Mentorship & Coaching*
- *Cross-functional collaboration with Product, Engineering & Ops*
- *Organizational Design & Design Culture Building*

PROFESSIONAL EXPERIENCE

DISNEY ENTERTAINMENT AND ESPN TECHNOLOGY

REMOTE

LEAD DESIGNER (AD PLATFORMS)

OCTOBER 2021-PRESENT

Lead UX across Disney Advertising's enterprise ecosystem, including AdVisor, Atlas (Operative replacement), Inventory Catalog Manager (ICM), Mission Control, HARPS, and Jarvis/QTC AI. Manage and mentor a team of four designers, partnering with product, engineering, finance, operations, and executive leadership across nine interconnected platforms. Drive platform consistency, long-term vision, and strategic alignment across the Quote-to-Cash (QTC) lifecycle

STRATEGIC & PLATFORM LEADERSHIP

- Lead UX for **AdVisor**, Disney's core enterprise platform used by Disney Ad Sales and Traffic teams across ABC, ESPN, FX, Freeform, National Geographic, and Disney Channel.
 - Modernize workflows for planning, sales, trafficking, campaign health, forecasting, and inventory visibility.
 - Translate complex business logic and legacy workflows into scalable, intuitive interfaces used daily across the company.
- Serve as lead designer for **Atlas**, Disney's next-generation OMS replacing Operative.
 - Designed foundational experiences for order setup, rules management, inventory workflows, trafficking, and downstream reconciliation.
 - Supported Studio and Enterprise Technology goals by enabling Disney to reduce long-term dependency on external systems.

FRANCES SUN

919.274.4764 mobile ■ francessun@gmail.com

- Drive UX strategy and platform integration across **ICM**, **Mission Control**, **HARPS**, and **AdVisor**, ensuring a coherent product ecosystem with consistent workflows, terminology, and navigation.
- Define frameworks for **Jarvis/QTC AI**, including early copilot experiences, intelligent plan generation, forecasting support, and automated QA recommendations.
- Lead the design integration strategy for **Atlas ↔ AdVisor ↔ Jarvis**, ensuring AI-assisted actions enhance (rather than disrupt) planner and trafficker workflows.

AI, & EMERGING TECHNOLOGY

- Establish design principles, reusable patterns, and component libraries across QTC products, improving delivery speed and reducing engineering rework.
- Lead AI adoption efforts by designing interaction models (prompts, explanations, transparency signals, confidence levels) that ensure responsible, trustworthy use of automation in critical business workflows.

CROSS-FUNCTIONAL INFLUENCE & EXECUTIVE VISIBILITY

- Shifted design from tactical execution to a **strategic partner** in roadmap planning, prioritization, resourcing, and organizational clarity.
- Present work at Alliance Reviews, Director/VP-level sessions, portfolio updates, and Studio-wide forums.
- Presenter at **UX Summit: “Don’t Skip the Commercial”**, reaching over 2,000 internal viewers and aligning cross-functional teams on the future of ad-tech experience design.

TEAM LEADERSHIP & CULTURE

- Manage four designers across multiple complex, interdependent programs; create clarity, drive accountability, and foster healthy team culture.
- Provide coaching in system thinking, workflow modeling, critique, and visual communication.
- Advocate for organizational design improvements, role clarity, and long-term resourcing across the QTC portfolio.

COLLEGE FOR CREATIVE STUDIES GRADUATE STUDIES

ADJUNCT PROFESSOR

DETROIT, MI

JANUARY 2024- PRESENT

Designed and taught 'User Interface' for a graduate program, guiding students through foundational UI principles and design best practices. Developed course materials, led weekly lectures and critiques, and evaluated student work to support their growth as UX professionals

AUSTIN COMMUNITY COLLEGE

ADJUNCT ASSOCIATE PROFESSOR

AUSTIN, TX

JANUARY 2020- DEC 2023

Teach UXUI-1372 (User Interface Design I), UXUI 1374 (Introduction to UX Tools), UXUI-2372 (User Interface II), *Teach UXUI-1371 (Visual Design) and UXUI-2374 (UX career labs)* to diverse student population. Develop syllabus, lesson plans and assignments. Evaluate student work.

DELL TECHNOLOGIES ROUND ROCK , TX

FRANCES SUN

919.274.4764 mobile ■ francessun@gmail.com

PRINCIPAL PRODUCT DESIGNER

APRIL 2021-OCT 2021

SENIOR PRODUCT DESIGNER/TEAM LEAD

JANUARY 2019-MARCH 2021

Design internal sales experience for Dell Sales Application and Online Solution Configurator channel partner. Manage complex projects from concept to product releases. Conduct global user research to understand user pain points and test new design proposals. Collaborate with manager to evaluate project needs, assign work to designers, and ensure timely completion. Mentor junior designers by providing design feedback and coaching on internal processes. Oversee hiring process, and bring six designer joined the team in 2020.

Selected Projects

- Canada Pricing Experience: Designed experience for Canadian Sales Representatives to convey pricing to customers and to ensure tax-exempt status is applied when applicable.
- Guided Journey: Redesigned end-to-end experience for configuring complex Dell EMC Server/Storage Product. Interviewed sales teams in the U.S. and Asia to understand user pain points and validate design proposal.
- Channel Partner Order Request: Created new experience for Channel Partners to collaborate with Sales representatives when they require additional support.
- Unified Sales Experience: Created a future vision for Dell Sales Application. Worked with researcher to learn sales process pain points across multiple, frequently used applications.

LENOVO U.S.

MORRISVILLE, NC

ADVISORY USER EXPERIENCE DESIGNER

FEBRUARY 2014-DECEMBER 2018

Designed user-focused applications and interfaces for PCs and mobile devices. Managed projects from concept development to storyboard stage to product launch; produced product prototypes. Collaborated cross-functionally with researchers and product development team to conduct user testing and revise storyboards according to feedback. Completed simultaneous ongoing projects on tight deadlines.

Selected Projects:

- Cross Share: Sole designer on 30-person Motorola collaboration that allows Android users to see SMS and photos on a Lenovo PC app; developed process that reduced labor by 30% (2017-2018).
- Connect2: Designed UI / UX for phone (Android 4.4) /PC (Windows) collaboration app that led to development of Cross Share (2016).
- Lenovo REACHIt 3.0: Led concept development, prototypes, and UI / UX for the first plug-in for Microsoft Cortana; collaborated with team of 16 developers, architects, and project / marketing managers (2015).
- Lenovo REACHIt 2.0: Developed concept and led UI and UX for upgrade of cloud software that met user need for simplified data management; increased monthly users from version 1.0 from 100 to 100,000 (2012+).

LENOVO U.S.

MORRISVILLE, NC

GRAPHICAL USER INTERFACE DESIGNER

OCTOBER 2011-JANUARY 2014

Incorporated user feedback and preferences to design applications for ThinkPad PC and Android tablet. Drew all screens and icons and mapped user flow; provided project specs to development team. Received Best New Employee award (2011).

Selected Projects:

- ThinkPad Smart Mark: Led concept development, UI, and UX for application pre-loaded with all ThinkPad devices around the world that allows input of Mandarin characters via trackpad (2013).
- Win8 Metro: Designed user interaction and experience for upgrade to the first Lenovo app designed for Windows 8; provided PC performance diagnosis and pre-loaded on all ThinkPad devices.
- ThinkPad Tablet 2.0: Oversaw end-to-end UX design for Android 4.0 devices targeted to business users, collaborating with team of 15. Optimized screen layout, added widgets, and developed shortcuts (2011).

NATIONAL TAIWAN UNIVERSITY

TAIPEI, TAIWAN

SPECIAL PROJECTS DESIGNER, DEPARTMENT OF ENGINEERING

SUMMER 2009

FRANCES SUN

919.274.4764 mobile ■ francessun@gmail.com

Developed website for Taiwanese government agency to monitor and provide information about current and potential flooding.

UNION DESIGN & DEVELOPMENT CORPORATION (CURRENTLY ADVANTECH CO.)

TAIPEI, TAIWAN

DESIGNER

MAY 2006-MAY 2009

Created products and user interfaces for boutique industrial design firm. Collaborated with client developers and incorporated user research to develop story boards and prototypes.

Selected Projects:

- **UbiQ-230T:** Developed product concept, hardware and UI / UX for early smart home lighting controller (2007).
- **UbiQ-350:** Designed UI / UX for handheld smart conference room controller that managed lighting, audiovisuals, and facility preferences (2008).
- **Creveotek CT500:** Led product design for handheld lighting controller (2009).

EDUCATION

COLLEGE FOR CREATIVE STUDIES

DETROIT, MI

MASTER OF FINE ARTS IN INTERDISCIPLINARY DESIGN

MAY 2011

- Dean's List (2010).
- Winner, Whirlpool sponsored design project: Developed automated shopping information experience for laundry appliances (2010).

CHANG-GUNG UNIVERSITY

TAOYUAN, TAIWAN

BACHELOR OF SCIENCE IN INDUSTRIAL DESIGN

MAY 2006

PATENTS

United States: US9652465B2, US9141211B2, US9377948B2, US9298692B2, US9377948B2 (Granted).

China: CN104281404B (Granted); CN103914247A (Applied).
